---

### PROFILE

---

Full-Stack Developer with 3 years of experience building **Laravel** APIs, **React/Next.js** dashboards, ecommerce platforms, and mobile app backends. Skilled in **MySQL**, **TypeScript**, **REST API** integration, OOP, MVC, authentication, **payments**, responsive UI, performance optimization, legacy code refactoring, and server deployment. I deliver scalable, production-ready applications that support real business operations and growth.

---

### PROFESSIONAL EXPERIENCE

---

**Kemedar** [🌐](#) 2025 – Present  
Full Stack Developer Cairo

Worked on **4 major production projects**, adding features, improving performance, and refactoring legacy code. Collaborated with **8+ developers and international engineers** on GitHub, and managed **server deployment, troubleshooting, and application stability**.

**Inom-Techs** 2024/11 – 2025/10  
Full Stack Developer (Part Time) Alexandria, Egypt

Developed a **social media app from scratch with minimal resources**, built **8+ websites**, and created a **freelance platform system**, showcasing full-stack expertise and scalable solutions.

**NTG** [🌐](#) 2024/08 – 2024/11  
Back-End Giza, Egypt

Worked with **Laravel**, gaining hands-on experience in **web application development**, collaborating on team projects, and applying best practices in backend development.

**Techno Future Academy** 2023/08 – 2024/09  
Instructor & Coach Alex, Egypt

Taught programming and web development (Python, C++, Java) to students aged 9–17, and coached teams in competitions across age groups (4–16). Instructed on **Unity Engine, MIT App Inventor, robotics, Lego-building, team-building, and presentation skills**, achieving award-winning performances with all teams.

**The MOK** 2025/12 – Present  
Full Stack Remote

#### Full-Stack Developer

Worked on production projects across ecommerce, delivery, printing, event photography, admin dashboards, and marketplace systems. Built and maintained Laravel APIs, React/Next.js dashboards, authentication, payments, order workflows, media uploads, reports, notifications, and role-based user flows.

Key projects included **WikiFood, Printout, Taggz, TradesAxis**, and **Alnasser**, covering multi-vendor commerce, online printing delivery, AI event photography, standard ecommerce, and retail ecommerce/landing page platforms.

---

### EDUCATION

---

**Arab Open University** jeedah, Saudi Arabia  
Associate of Computer Science

---
